CEN-TRAILS

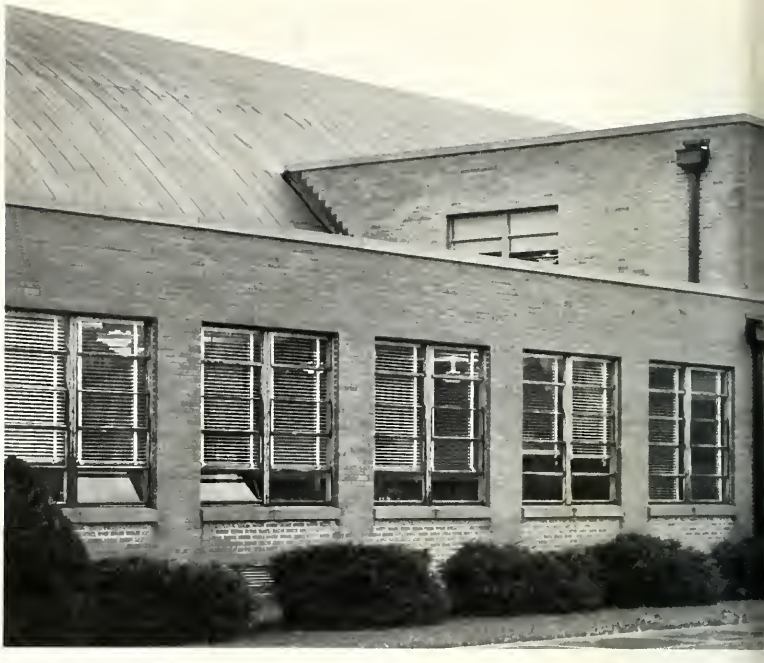
ADAMS CENTRAL SCHOOL

MONROE, INDIANA

VOLUME 15



We Work

We worked for unity at Central with the coming of the reorganizational students from Pleasant Mills and parts of Berne. This year the new students joined ours in cheering our teams to victory, fighting the traffic through the hallways, and talking to that special someone on the way to classes.

Other examples of the interweaving with the new students occurred when we strived for unity as we attended club meetings, assembly programs, worked on class projects, and participated in baseball, basketball, track, and band.

MISS BEAVERS watches Roger Rupp, Carmi Steffen, and Brenda Hamrick explain algebra problem to class.

Mathematics and Science

In mathematics one is always encountering a new frontier. Central offers students general math, algebra, and plane and solid geometry.

Freshmen were required to take one year of math, choosing between general math and algebra. In general business students learned to figure income tax. Algebra students solved equations in which there were two unknown letters.

Prepare Pupils for Ever-changing World

Freshmen biology classes searched for months to find leaves and insects for their collections. The dissecting of fish and frogs helped them to understand the functions of the human body.

Physics classes furthered their scientific studies with the application of forces, energy, and changes that take place in matter. They also studied such principles as how much power it would take to raise a given amount or weight a given distance under a given condition.

In chemistry classes, juniors learned the proper procedure for solving chemical analysis. After learning many chemical symbols the students worked scientific problems and compared their results with Einstein.

DIANNE MOSER, Roger Currie, and Carol Tonner ask Miss Williamson questions about their bug collections.

MRS. MUNSON explains the function of a word in a sentence to Sharon Currie, Sue Bentz, and Ed Beer.

MRS. STUCKY explains the translation of a Latin word to Cheryl Isch, Romona Merriman, and Dave Suman.

A Firm Foundation for Future Years

Spanish and Latin grow rapidly as Central students want to learn more about foreign countries and their languages. Miss Williamson, who has traveled to Mexico, teaches the Spanish class and Mrs. Stucky teaches Latin.

Central had many other sports besides basketball in which students could participate in. From cross country and baseball in the fall to track in the spring, our athletes kept themselves in "shape."

The important role that sports played in the school activities was the ever growing spirit of competition that was created as the athletes strived for unity.

Pep Club Backs the "Flying Jets"

"BLAST 'EM JETS, BOMBS AWAY!"

With the consolidation of Pleasant Mills and Adams Central, the pep club and cheerleaders had a new name to yell. The kids backed the "Flying Jets" all the way whether they won or lost. The new colors, red and white, were worn by pep club members at each home game. Words for a new school song sang to the tune of "On Wisconsin" were written by Gloria Rupert.

STATISTICIANS kept a close record of the good and bad points of a basketball game.

The hardwood quintet was put through their paces by Mr. Zurcher and ended the season with a 15 wins and 4 loses record. This is one of the best records of an Adams Central team. The boys were able to achieve this record due to the effort put forth by each boy as he worked for unity.

1964 Sectional Champs

TEAM CAPTAINS accept trophy from tourney manager, Mr. Honaker.

1964
SECTIONAL CHAMPIONS

The Adams Central Jets captured the 1964 Sectional by defeating the Hoagland Wildcats in an overtime, 59 AC to 57 Hoagland. The quintet continued their winning streak by defeating the Monmouth Eagles, 61 to 58. They finished the sectional by ousting the Berne Bears, 78 to 60.

School does not occupy all of the Centralites time. Students always have time to join a club and participate in its activities with other students. These clubs offer students a chance to learn to co-operate with others as they help on many different committees. There have been two new clubs added to the agenda. The students joined each other in backing the Spanish and Rifle Clubs.
